

# Mission Statement

For the Child Development Center  
Of Washington Street United Methodist Church

The Child Development Center is a Christian ministry of Washington Street United Methodist Church that provides a safe and stimulating environment for children to grow within the context of meaningful play, learning, and a sense of trust and safety.

This setting supports and promotes child development by facilitating children's growth in self-awareness, sensitivity to others, and a capacity for managing new situations.

Our children are empowered to appreciate diversity, cultivate the foundations of morality, and grow in social responsibility that enables lifelong learning.
